# GENERAL INTRODUCTION

SSG Management Solutions Joint Stock Company (SSG JSC) was founded in 2007. Our primary focus is on consulting and implementing cutting-edge enterprise management software, in addition to developing infrastructure, technology, and offering software outsourcing services related to management and engineering.

SSG was founded with its headquarters in Ho Chi Minh City and a branch office in Hanoi. With a team of highly skilled and experienced consultants, SSG has progressively positioned itself as one of the foremost technology companies in Vietnam, successfully executing numerous complex projects in a brief timeframe with cost-effective investments.

# VISION & MISSION

SSG aims to establish itself as a premier firm specializing in consulting and implementing business management solutions. By leveraging a wide array of innovative technologies and methodologies, SSG seeks to enhance the management of enterprise resources, facilitate swift and effective decision-making, and ultimately strengthen the management capabilities of Vietnamese businesses.

# DEVELOPMENT JOURNEY

**2007**

Founded and based in Ho Chi Minh City, Vietnam

**2008**

With a multitude of projects surpassing expectations, SSG has garnered recognition from Oracle and has established itself as a premium partner in the Vietnamese market.

**2011**

This represents a pivotal milestone, signifying the moment when SSG broadened its operations beyond Hanoi, delivering services and effectively executing numerous projects for clients in the northern provinces.

**2013**

We have established ourselves as a long-term IT consulting partner for numerous prominent clients in the manufacturing sector. These clients possess significant requirements for ERP systems and associated solutions. The majority of projects are executed on or ahead of schedule, resulting in stable and efficient systems.

**2022**

Despite the challenges presented by the Covid-19 pandemic, we remain a trusted and preferred partner for our clients in executing various business process digitalization and optimization projects on the Oracle technology platform.

**Now**

In alignment with the advancements in AI technology, SSG has conducted research, development, and packaging of various AI application solutions tailored for businesses. Furthermore, SSG has created numerous products centered around the Core ERP ecosystem for enterprises.

# OUR OFFERINGS

## Enterprise Management Solutions

We offer implementation and technology transfer services for premier global enterprise management software solutions.

## Outsourced Services

We provide outsourcing services, supplying experts who collaborate directly with businesses to manage complex and specialized tasks tailored to each business model, thereby ensuring seamless overall operations.

## Custom Application Development

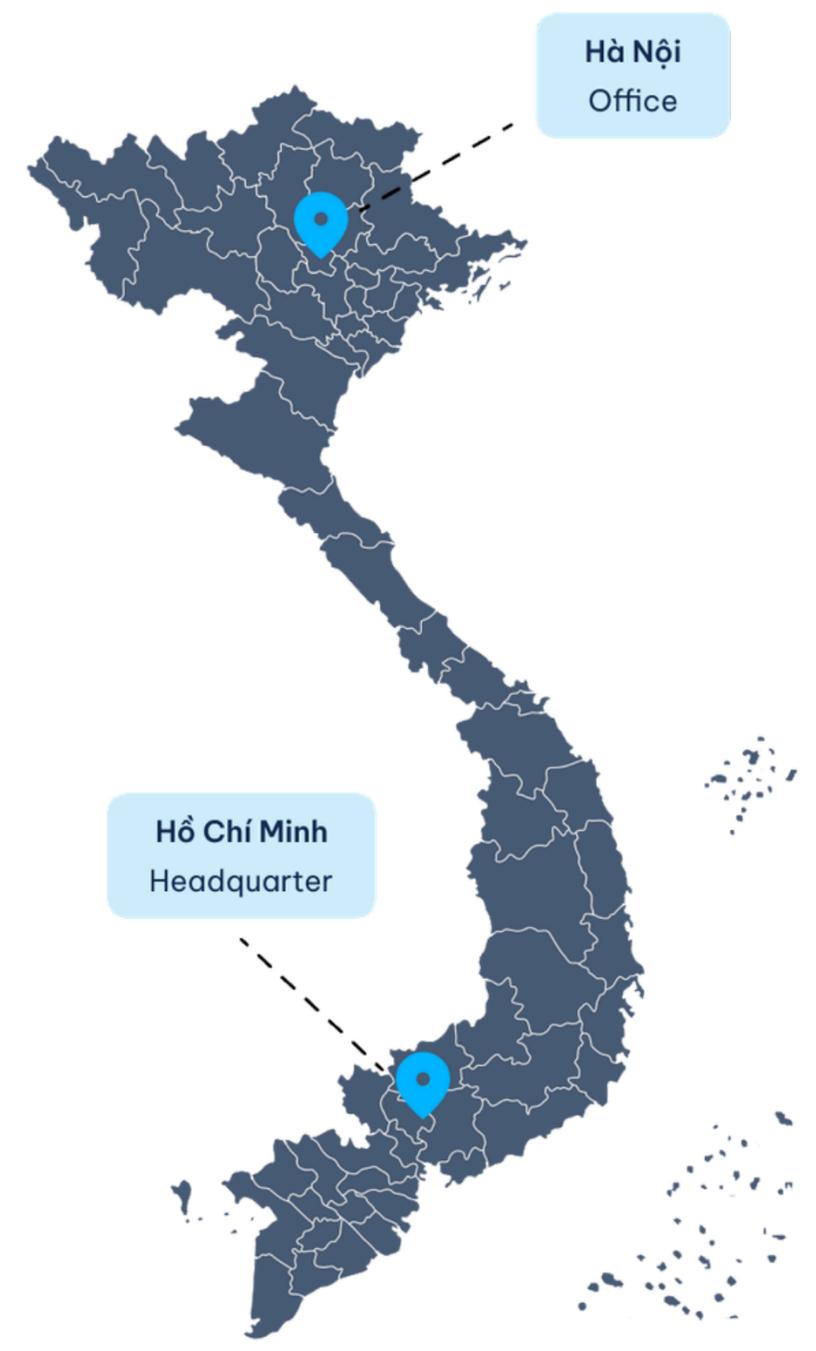

We offer specialized application software development services customized to meet the unique requirements of each business, incorporating various business models and organizational development strategies aimed at digital transformation. We guide clients in choosing technology platforms that align with their needs and long-term objectives.

## System Integration

We offer professional services to integrate systems, encompassing server hardware, cloud infrastructure, business operating software, and business management software, into a cohesive business environment to enhance workflows.

# IMPLEMENTATION EXPERIENCE

We have assembled more than 10 industry-specific solution sets to assist businesses in their deployment and seamless implementation.
